The F2 reception counter is available in a vast range of configurations, colours and finishes. It is a tile-based modular system which allows for easy alteration of colours and finishes. The example shown here is a straight reception with ends, white painted glass tiles and aluminium extrusion. As with the F2 screen system the F2 reception has accessories that create extra space. The extruded aluminium frame increases durability and adds aesthetic appeal. The F2 reception can include an in-built cable management system with voice/data and power outlets flush mounted on the surface of any face. The floating transaction counter can be in wood veneer, melamine or toughened glass with raised stainless steel flush fittings.

MODEL	DESCRIPTION	LENGTH mm	DEPTH mm	COUNTER HEIGHT mm
